

MV/HV grid connection solution

Products & Services

For over 40 years, our engineering teams have shared the same priorities: understanding your needs, offering expert advice, and delivering electrical connection solutions that are safe, reliable, innovative, and built to last.

We provide high-voltage control cabinets with switchgears of your choice, complemented by our NP900 and NP950 series of protection relays. From initial design to on-site maintenance, we stand by your side at every stage of your project with a comprehensive range of services.

OUR TRADEMARKS

HV PRODUCTS

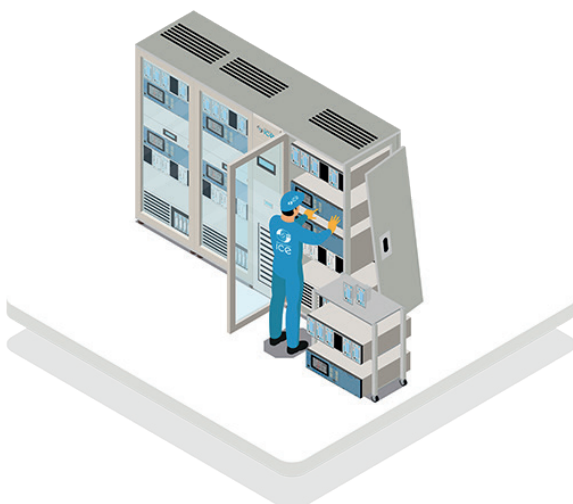

As a long-standing partner and supplier to RTE, ICE SAS is a trusted expert in high-voltage systems. We deliver cutting-edge protection and automation solutions that are tailored, efficient, and innovative, ensuring the highest standards of quality and safety.

- Control and command cabinets
- Manufactured and assembled in France
- Integration of products
- NP900 Series – Advanced protection
- NP950 Series – Expert protection

THEY TRUST US...

A long-standing supplier to RTE and Enedis

- Over 1,000 cabinets installed
- Design
- Configuration
- Installation & commissioning
- 150 cabinets delivered per year

YOUR MV/HV INSTALLATION

HV

- Control and protection cabinets
- Protection relays
- MCO/MCS
- Engineering

MV

- MV switchgears
- NP400 relays C13-100/C15-400 (under qualification)
- NP900 Series - Advanced Protection
- NP950 Series - Expert Protection

- After-sales

MV PRODUCTS

ICE SAS offers industrial customers MV switchgears associated with our NP900 and NP950 series of digital relays.

With our engineering team, we support you throughout your medium-voltage projects, from the specification phase to the maintenance of your installations, ensuring reliable operation and full compliance with safety standards.

PROTECTION RELAYS

- NP900 Series
- NP950 Series
- AP900 Series

MV SWITCHGEARS

- C9-AIR-MCI
- C-AIR-MCCompact
- C9-AIR-DP

SERVICES

Certified to ISO 9001 and ISO 14001 standards, and recognised by EcoVadis, ICE SAS is committed to delivering sustainable quality in every solution.

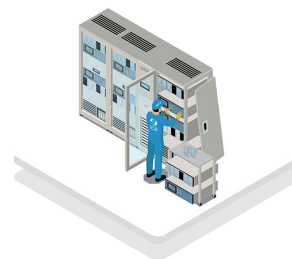

Our medium and high-voltage systems are designed and tailored to perfectly match your specific connection requirements.
